## WHY use Adjectives / WORKSHEET 3

**A) Read both writings, describe which is more interesting to read and why?**

A) Last night I went to my bedroom and slept, I fell asleep. I dreamt that I lived in a house. It was ok so I had to go shopping. I went to a shopping center. It was a day, I could smell the chocolate they were selling. There was a man who was selling furniture, he looked, there were many people listening to him. After a while he was still talking, I walked around the shop and I bought a sofa. I returned home to receive my sofa.

B) Last night I went to my warm messy bedroom and slept, I fell into a crazy deep sleep. I dreamt that I was rich and I lived in an expensive house. It was empty so I had to go shopping. I went to a loud and new shopping center. It was a sunny but cold day, I could smell the hot chocolate they were selling. There was a man who was selling furniture, he looked a little cranky, there were many people listening to him. After a while he was a little boring, I walked around the big shop and I bought a sofa. I returned home energetic and excited to receive my new and luxurious sofa.

**B) Underline all the adjectives you can find?**

**Your opinion of the difference between the texts.**
